Rybničná 36/D
SK - 831 06 Bratislava

Bratislava 1.11.2016

Reference letter

At the end of year 2015, company Hoffmann s.r.o. offered us to use their product – Multifunctional device i.e. Battery regenerator “DF48” for regeneration of lead-acid power batteries and to implement it in the battery maintenance in our company.

We hereby confirm, that by using the device DF48 by company Hoffmann s.r.o. during the maintenance, we significantly prolonged the battery lifetime that proved as an important saving in a need for new battery purchases.

In a course of one year, we managed to lower the need to buy new batteries significantly, taking different types of batteries in account.

Battery purchases:

Year Number of purchased batteries

2014 100 pcs.

2015 110 pcs.

2016 (till 1.10.16) **40** pcs.

The cost saving started appearing right after the implementation of DF48 by company Hoffmann s.r.o. Considering the above-mentioned experience, we can highly recommend the device DF48 for regeneration of lead-acid batteries.
